

Delta Dental of Illinois

History/Background

Formed by the international Longshoremen and Warehousemen's Union/Pacific Maritime Association Benefit Fund to provide dental coverage for their member's children over 50 years ago, Delta created the dental benefits industry.

With locations throughout all 50 states and Puerto Rico, union members-living or traveling out of state-can find a Delta Dentist because nearly 75% of all practicing dentists in the US are Delta Dentists.

The year of the original Endorsement with the Coalition was 2005 and we are proud of our continued partnership.
